

Birds of Whitewater

and the surrounding area

Tuesday, February 17, 6:30 PM – Irvin L. Young Memorial Library

A presentation by:

Scott Weberpal

Wildlife Photographer and Bird Lover

(Sponsored by the Urban Forestry Committee)

Scott Weberpal, a Town of Whitewater resident, will be displaying his photographic talents as he discusses birding in Whitewater and the surrounding area. By trade, Scott works in Geographic Information Systems, but in his free time he pursues that perfect shot in the wild. Scott has compiled a list of over 120 bird species he's observed in the City of Whitewater, and he'll be discussing some of his favorite areas to find specific bird species in the city and beyond.
